Cloudreach

CLOUD TRANSFORMATION PRIMER

Azure Expert MSP

Challenges Cloudreach Helps Solve

Disruptive Impact of Cloud Transformation

Overwhelming Cloud Options

Lack of Strategic Alignment

Outdated and Vulnerable IT Strategy

Undefined Success Metrics

Business Case Development

At Cloudreach, we know Cloud is a disrupter that provides an immense opportunity for organisations to achieve a number of benefits.

Accelerate innovation and scalable growth

Improve operational efficiency

Improve business agility

Derive new value from technology and data

Reduce the cost of technology

Our Cloud Transformation Primer provides expert insight and tailored guidance to organisations seeking to undertake Cloud Transformations. This engagement is designed for companies that are just starting their cloud journey or cloud adopters that have stalled. In either case, Cloudreach can help organisations that are challenged to accurately plot a course forward, and require outside expertise in understanding the full capabilities of the cloud.

Cloud Transformation Primer

Pre-Workshop Call

Current State Workshop

Future State Workshop

Brief call to discuss:

- Business priorities
- Cloud strategy
- Cloud adoption drivers
- Cloud initiatives& Challenges

Used to tailor workshops to customer requirements Capture business objectives and considerations and identify how the cloud can help with:

- Business challenges
- Workload types, any existing cloud use, volumes and any related issues
- Commercial arrangements and costs
- How can the cloud help business challenges?

Outline and plan changes to existing IT people, processes, and tools that support the upcoming journey, such as:

- High-level workload analysis
- How do I manage my new cloud footprint?
- How do I get there? When could I get there?
- What will it do to my current organisation?
- What would define success?

Deliverables: Summary of findings during the workshop, high level timeline and milestones, identification of early experiments and wins & definitions of success criteria.
